Elementary Summer School 2015
Enrichment Unit Description

Name: Craig Tornquist   **Summer Site:** Sinclear   **Summer Grade:** 5th

Email: ctornquist@ceres.k12.ca.us   **In-District:** <mark>Yes</mark> or No   **Out-of-District:** Yes or <mark>No</mark>
     (Highlight one)   (Highlight one)

Please describe below in one or two paragraphs your plan for your enrichment unit during Elementary Summer School. If you are planning one or more enrichment units/activities please describe each one. All enrichment activities must have a literacy component. Include in your description how you will integrate literacy into your enrichment activity (ex. Vocabulary development, writing, and/or reading). Your description must support the items you have chosen to be purchased on the attached order forms.

Enrichment Unit Description:

- Enrichment Name: Multimedia Magic with Google Apps for Education

- General Objective of Course: Students will collaborate and create documents and multimedia presentations using Google Apps, with the focus being on becoming experts in the use of Google Slides and Google Docs. Students will write short scripts to explain features in Google Docs and Slides, then film their scripts using the digital camera, and upload their videos to Google Drive, and with parent and district permission, YouTube. Writing and vocabulary development is embedded in the activities.

- 19 Day Activity Plan
    Week 1 – Introduction to Google Account and Apps

    Week 2 – Plan an Autobiographical presentation in Google Docs and create it in Google Slides. Take photographs (teacher supervised) using the camera and upload them to their Google Drive for use in Docs and Slides.

    Week 3 – Collaborate (using the share feature) to create a script in Google Docs that explains how to use a feature of Google Docs, Google Slides, or Google Drive.

    Week 4 – Finalize script and film explanation of various features of Docs, Slides, or Drive, and upload them to Drive to be shared with Mr. Tornquist, so it can later be shared with other educators for future instructional purposes

- Items Needed for Activities: Digital camera, memory card, computer lab or Chromebook cart

- Attach the Documents:
